1. ORGANISATIONAL BACKGROUND

The National Film and Video Foundation (NFVF) is an agency of the Department Sports, Arts and Culture (DSAC) that was created to ensure equitable growth of South Africa's film and video industry. We do this by providing funding for the development, production, marketing and distribution of films and also the training and development of filmmakers.

In addition, the NFVF commissions research and produces industry statistics that provide both the public and stakeholders with valuable insights into the South African film industry.

The NFVF is located at 87 Central Street, Johannesburg, Houghton. Most of the NFVF's Information and Communications Technology (ICT) Infrastructure is owned and operated at its premises. The NFVF's temperature-controlled server room stores a rack of dedicated servers and one EqualLogic PS6100 SAN storage. Currently, the one (1) Dell R740xd dedicated server running VMware ESXi 6.7 virtualizes six (6) virtual servers. The virtual servers are used to access the network, store work data files, operate the phone and voice messaging systems, run the Pastel evolution financial system, SAGE payroll, and Printing services. All our virtual servers are Microsoft based, this includes an Active Directory Domain Controller server, a DFS server, an application server, and a backup server that runs the Veeam enterprise backup solution. A Commvault backup solution will soon replace the Veeam back solution. The NFVF ICT Infrastructure hardware operates at about 100/100 Mbps speeds. We have an uncapped\unshaped enterprise broadband bandwidth plan of up to 50Mbps that we use at NFVF to access the Internet. We are directly connected to the ISP's network with a fibre line, and we also have a 10Mbps fall back ADSL line. We have a Fortinet 100E Firewall that monitors our incoming and outgoing traffic.

There are about 60 users situated in the NFVF building. The following services are provided by the various service providers, ISP (Vox Telecom), Cloud PBX (Vox Telecom), Email Archiving and backup (Mimecast), Website support, and web hosting (Sound Ideas), Offsite backups (Global Continuity).

Currently the NFVF's ICT process has been fully outsourced and the vacant position of the ICT Manager would be filled during July/August 2022. Upon filling the ICT Manager, we'll appoint the ICT Technician post which is vacant now.
