- Postgraduate degree in Economics/Social Sciences, or any degree relevant to research.
- 3 years' experience in a research, project management, or a similar role.
- Knowledge of the Film & Media Industry is essential.
- Understanding of Supply Chain Management processes for commissioned research is an added advantage.

Key Responsibilities:

- Conduct both qualitative and quantitative research on behalf of the NFVF.
- Identify research areas and topics that are of interest to the NFVF's core business.
- Write research proposals for identified research areas with input from the organisational departments applicable to the proposal, guidance from and approval by the Compliance and Research Manager.
- Draft Terms of Reference (ToR's) for commissioned research reports.
- Determine the appropriate research methodology for each research study.
- Design appropriate methods of disseminating research findings to the relevant stakeholders.
- Ensure that research commissioned and/or developed aligns with latest audiovisual content services policy frameworks and other related white papers.

- Liaise with external and internal stakeholders to collect relevant data for NFVF's programmes and research areas.
- Ensure that all the stakeholders are aware of their role in the research studies.
- Analyse, summarise, and make available recent and relevant research report to industry bodies.
- Attend and contribute to research related industry engagements that will help support the development of an industry research database
- Act as the contact between the NFVF and external film organisations in providing information relating to research.
- Develop and compile a project plan for all the approved research projects.
- Analyse the performance of approved NFVF's funding programmes.
- Maintain an updated database of all stakeholders with whom research projects have been conducted.
- Maintain an updated database, including, but not limited to data collection instruments, raw data collected during research of all industry research and projects conducted for internal stakeholders use only.
- Provision of audit information as per the APP deliverables for the benefit of Internal and External Audit Assessments.
- Provision of all Research audit related information by ensuring accurate and timeous submission to auditors.
- Model organizational values at all times in the day-to-day execution of duties.
